

JAJI YUSUF OLASENI

SOFTWARE ENGINEER

+2349057287824 | yusufolaseni602@gmail.com | <https://github.com/Yusufola157>

PROFESSIONAL SUMMARY

Innovative and results-driven Full Stack Software Engineer with over 3 years of experience in designing, developing, and maintaining software applications. Proficient in both front-end and back-end development, with expertise in a variety of programming languages and frameworks, including JavaScript, Typescript, React, Node.js, and more. Skilled in managing the software development lifecycle, from ideation and planning to testing and deployment. Committed to delivering high-quality, scalable, and user-friendly software solutions that meet client expectations.

PROFESSIONAL EXPERIENCE.

FRONTEND ENGINEER | ALAJO ONLINE | March 2023

- Translated UI/UX designs to code resulting in visual elements of the application.
- Worked with members of the creative team to develop technical solutions.
- Bridged the gap between graphic design and technical implementation by working both sides and helping define application looks and feels, hence improving application UX.
- Implemented web performance optimization and ensured pages conformed to accessibility standards.

- **Key Achievements**

- Led team to victory on Hackathon competition of over 10 participating groups

FRONT-END LEAD | ecoBIN| April 2023

- Developed a comprehensive project plan that outlined the scope, timelines, resources, and deliverables for the ecoBIN project.
- Built and managed a project team, assigned tasks, and set goals and objectives for each team member.
- Established effective communication channels between team members to ensure everyone was informed and aligned.
- Ensured project deliverables met required quality standards and conducted quality checks throughout the project lifecycle.

SOFTWARE ENGINEER / INSTRUCTOR | CODELAB | August 2021 – Current

- Utilized the HTML/CSS / React / Node framework to build quality user interface and APIs.
- Collaborated with senior web developers, backend /frontend developers, and UI/UX designers to design, build and test to improve web products.
- Headed company projects from research and deployment of products.
- worked on ERP products.

Key Achievements

- Mentored new entry developers on expanding their Node js/React js / javascript skill set.
- Co-hosted Tech Conference for new student intake.

Skills & Abilities

- React Js / Node Js
- TypeScript / JavaScript
- Redux
- UI/UX (Figma)
- Project Management
- Team Leadership
- API Integration
- HTML / CSS
- Styled Components
- Tailwind
- Git version Control
- Jira

Projects

- **Alajo Online (Savings and other saving plan / Dashboard)** – React, Node, bcrypt, TypeScript, clouinary, GitHub, MongoDB, Redux, Express, Render
- **ecoBIN (waste management app)** – React, Node, bcrypt, TypeScript, GitHub, MongoDB, Redux, Express, Render.
